- a) on a Dealing Day where there are net subscriptions into the Underlying Sub-Fund and which will be included in the net asset value per share of the Underlying Sub-Fund which is the subscription price. This charge reflects the costs incurred by the Underlying Sub-Fund in disposing of portfolio securities to meet the redemption requests.

The charge shall not exceed in any event 2% of the subscription or redemption monies, as the case may be, and in both cases the charge shall be paid into or retained by the Underlying Sub-Fund, as the case may be, in order to discharge the typical costs of dealing in the underlying investments of the Underlying Sub-Fund, such as dealing spreads, dealing charges, fees and taxes.

- b) without prejudice to the generality of the foregoing, if on any day which would otherwise be a Dealing Day in relation to Units of the Sub-Fund the recognised market on which investments or other property comprised in, and having in aggregate values amounting to at least 50% of the net asset value (as of the immediately preceding valuation point) of the Sub-Fund are quoted, listed or dealt in is or are not open for normal trading, or (ii) on any day where any of the Underlying Sub-Funds is not normally traded, the Manager may determine that day shall not be a Dealing Day in relation to Units of the Sub-Fund.
