

Stewart Investors Worldwide Sustainability Fund Class A EUR

a subfund of First State Investments ICVC (the Company) – Fund Factsheet

31 March 2019

Investment objective and policy

The Fund aims to grow your investment.

The Fund invests in shares of companies around the world. The Fund may invest in both developed and emerging market countries (countries that typically have lower than average income and standards of governance than developed markets). The Fund invests in companies which are positioned to benefit from, and contribute to, the sustainable development of the countries in which they operate. Investment decisions around sustainability are based on three key points: Identifying companies who manage sustainability risks and opportunities and those with a positive sustainability impact; Inclusion of environmental, social and corporate governance matters in investment research; Engaging directly with companies on identified sustainability issues.

Risk and Reward Profile

◀ Lower Risk
Potentially Lower Rewards

Higher Risk ▶
Potentially Higher Rewards

The synthetic risk reward indicator (the SRRRI) rating is not a measure of the risk of you losing your investment but describes how much the value of the Fund went up and down in the past.

The SRRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the Fund. We cannot guarantee that the rating of the Fund will remain the same: it may change over time.

Even the lowest rating 1 does not mean a risk free investment.

On a scale of 1 (less risky) to 7 (more risky), this Fund has a rating of 5 due to its past performance and the nature of its investments. Shares with a rating of 5 might have a higher risk, but also higher returns. Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.

The value of investments and any income from them may go down as well as up and is not guaranteed. Investors may get back significantly less than the original amount invested.

The Fund may also experience the following risks:

Currency risk: The Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund.

Emerging market risk: emerging markets may not provide the same level of investor protection as a developed market; they may involve a higher risk than investing in developed markets.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within five years.

For further information on risks, please refer to the Risk Factors section in the Company prospectus.

Investment should be made on the basis of the Prospectus and Key Investor Information Document. If you are in any doubt as to the suitability of any of our funds for your investment needs, please seek independent financial advice.

Important Information

This factsheet is a financial promotion and can be used for retail clients in the UK. Distribution is limited to Professional Clients in all other countries where lawful.

◊ An initial charge of up to 4% may be levied in certain circumstances, e.g. to limit the size of the fund, including on regular savings plans and may be remitted as commission to an intermediary.

† The ongoing charge figure (OCF) is calculated on the same basis as for the Key Investor Information Document and represents the charges you will pay over a year for as long as you hold your investment and may vary from year to year. The OCF is made up of the annual management charge and additional expenses, but excludes portfolio transaction costs. For further information about charges and costs please visit <http://www.firststateinvestments.com/uk/private/Charges/>.
